

The Federal Communications Commission

Dear The Federal Communications Commission,

PLEASE READ, THIS IS NOT A FORM LETTER!!!

To whom it may concern,

I recieved an e-mail from my cellular provider urging me to contact you concerning a flat rate long distance bill that is under consideration. The way it was explained to me, occasional long distance users would be charged the same as frequent long distance users. I am not opposing any action, but i would appreciate more information. I appreciate your time.

Sincerely,

James D. Rittmann
